

MAX-21XR-B

**Choice of wise driver
New generation
basic model is born.**

Code No.122000

There are many enthusiastic 1/8 off-road buggy drivers worldwide. O.S. has been supported by them for many years. O.S. now offers a new basic model MAX-21XR-B.

It's largest feature is easy handling. Not only beginners but also the drivers who want to start racing can extract the engine potential without fail. Since the basic layout is the same as the upper class 21XZ-B, the parts from the 21XZ-B can be used to upgrade the 21XR-B.
